

THINQ

Making inquiry-based learning a practical reality for every classroom

Series authors: Jill Colyer and Jennifer Watt

The **THINQ** professional learning series is designed to help educators see how, over time, they can integrate more inquiry-based learning and assessment into their classrooms.

THINQ is written from an educator perspective, and organized around the common questions educators ask and daily challenges they face in an inquiry classroom.

THINQ explores the big ideas that underpin inquiry-based learning, regardless of grades and disciplines. And each book in the **THINQ** applies these big ideas to the unique characteristics and needs of educators and learners at different grades and ages:

- **THINQ Kindergarten**
- **THINQ 1-3** (primary grades)
- **THINQ 4-6** (junior grades)
- **THINQ 7-9** (intermediate grades)
- **THINQ BIG** (principals and administrators)
